Deliverables:

A report summarizing the findings and high level recommendations. Miracle Software Systems Enterprise Architect and an IBM Certified Miracle Software DataPower Consultant will provide a walk through of this report.

Length of Engagement:

1 day of analysis (Completed report will be delivered soon after)

Pre-Requisites:

Miracle expects access to your Architect(s) who is knowledgeable of your Infrastructure, Applications, and Business Integration Implementations.

Fees:

Free of cost (A \$3,000 Value Miracle Service) (excluding travel expenses - although in most cases travel may not be required)

How to get started:

The first step is a 15-30 minute discovery call to understand your current situation, identify the areas Miracle will focus on during the engagement and determine if you qualify for a free DataPower Value Assessment

Miracle Software Systems' Certified Solution Architects will provide a DataPower Value Assessment that typically includes the following activities:

- ESB - Architecture and its usage Patterns
- ESB Appliances from IBM
- ESB based SOA Implementation
- IBM DataPower Live Demo

DataPower Demo Scenario's

Potential client can pick and choose whichever demo they would be interested in or suggest a particular demo that they would like to see being implemented.

- Web Service to Web Service Integration
- Web Service to Web Service with Transformation
- PCI – Credit card Transaction
- SAP Integration with Data Power
- Mainframe Integration with DataPower
- Data Power Integration with AS/400 Systems

DataPower Demo Goals

- Simple to use as a Toaster
- Reliable as a Router
- Highly Secure
- SOA Foundation
- Catalyst for SOA Deployments
- Low maintenance Cost
 - Easy to Monitor
 - Easy to Integrate into existing Networks
 - No expensive Administrators required
 - 40% - 60% cost reductions
